

TABLE OF CONTENTS
OF BIULETYN PERYGLACJALNY, NOS. 25–39
edited in the years 1976–2000

prepared by Leopold Dutkiewicz

BIULETYN PERYGLACJALNY, NO. 25 (1976)

ARTICLES and NOTES

- D. F. BALL: Close-packed patterned arrangement of stones and shells on shore-line platforms, p. 5–7.
- R. EVANS: Observations on a stripe pattern, p. 9–22.
- M. A. GONZALES, A. E. CORTE: Pleistocene geocryogenic structures at 38° S.L., 60° W. and 200 m above sea level, Gonzalez Chvez, Buenos Aires province, Argentina, 23–33.
- D. N. MOTTERSHEAD: Quantitative aspects of periglacial slope deposits in southwest England, p. 35–57.
- P. J. VINCENT: Some periglacial deposits near Aberystwyth, Wales, as seen with a Scanning Electron Microscope, p. 59–64.
- P. J. VINCENT, J. V. CLARKE: The terracette enigma – A review, p. 66–77.

PROCEEDINGS of the Co-Ordinating Committee for Periglacial Research of I.G.U.

- H. M. FRENCH: Current field measurements concerning the nature and rate of periglacial processes, p. 79–91.
- R. RAYNAL, A. CAILLEUX: Propositions pour une recherche sur la régionalité des phénomènes périglaciaires, p. 93–98.

INDEX to Biuletyn Peryglacjalny, Nos. 1–24.

Table of contents of Biuletyn Peryglacjalny, nos. 1–24, edited in the years 1954–1975.

Index of papers to Biuletyn Peryglacjalny, Nos. 1–24.

BIULETYN PERYGLACJALNY, NO. 26 (1976)

is dedicated to JAN DYLIK, the founder and first Editor in Chief of *Biuletyn*, in memory of his death in 1973.

JAN DYLIK, le savant, le périglacialiste et l'homme *par* RAYNAL, R.
p. 5–10.

THE ABERYSTWYTH SYMPOSIUM, 1975

Programme, p. 11–13.

Hommage au Professeur JAN DYLIK *par* A. PISSART et E. WATSON, p. 15–16.

M. SEPPÄLÄ: Seasonal thawing of a palsa at Enontekiö, Finnish Lapland, in 1974, p. 17–24.

R. ÅHMAN: The structure and morphology of minerogenic palsas in Norway, p. 25–31.

H. SVENSSON: Pingo problems in the Scandinavian countries, p. 33–40.

B. VAN VLIET-LANOË: Traces de ségrégation de glace en lentilles associées aux sols et phénomènes périglaciaires fossiles, p. 41–55.

G. C. MAARLEVELD: Periglacial phenomena and the mean annual temperature during the last glacial time in the Netherlands, p. 57–78.

E. WATSON: Field excursions in the Aberystwyth region, 1–10 July 1975, p. 79–112.

REPORTS OF THE LABORATORY EXPERIMENTS

A. PISSART: Introductory, p. 113.

A. HIGASHI: Research Laboratory, Department of Applied Physics, Hokkaido University, Sapporo, Japan, p. 114–117.

A. PISSART: Université de Liège, p. 118–127.

A. JOURNAUX: Centre National de la Recherche Scientifique, Centre de Géomorphologie à Caen, p. 128–133.

E. ASAHINA: Hokkaido University, the Institute of Low Temperature Science, p. 134–136.

L. LLIBOUTRY: Laboratoire de Glaciologie du CNRS à Grenoble, p. 137.

L. W. GOLD: National Research Council of Canada, Division of Building Research, p. 138–145.

A. L. WASHBURN: University of Washington, Quaternary Research Center, Periglacial Research Laboratory, p. 146–147.

D. ANDERSON: Department of the Army Cold Regions Research and Engineering Laboratory, p. 148–152.

- B. LADANYI: Université de Montréal, Ecole Polytechnique, Centre d'ingénierie Nordique, p. 153–158.
- R. N. YONG: McGill University, Soil Mechanics Research Laboratory, p. 159–161.
- T. TAKASHI: Seiken Reiki Co., Ltd, Japan, p. 162–165.

ARTICLES and NOTES

- R. CLARK: Further consideration of Falkland Islands periglacial landscape, p. 167–174.
- A. E. CORTE: Rock glaciers, p. 175–197.
- C. B. CRAMPTON: Patterned ground in the Maritimes, Canada, p. 199–204.
- J. DONNAY, *et al.*: Observations sur photos aériennes de structures périglaciaires en Ardenne centrale, p. 205–209.
- H. M. FRENCH and L. DUTKIEWICZ: Pingos and pingo-like forms, Banks Island Western Canadian Arctic, p. 211–222.
- P. GANGLOFF et A. CAILLEUX: Indices possibles de périgelisol discontinu, p. 233–235.
- A. GRUBB and B. T. BUNTING: Micromorphological studies of soil tonguing phenomena in the Burford loam, southern Ontario, Canada, p. 237–252.
- A. JAHN: Contemporaneous geomorphological processes in Longyear-dalen, Vests-pitsbergen (Svalbard), p. 253–268.
- A. JOURNAUX: Alternances du ruissellement et de la solifluction dans les milieux périglaciaires: exemples Canadiens et expérimentations, p. 269–273.
- A. PISSART: Sols à buttes, cercles non triés de île de Banks (Canada, N.W.T.), p. 275–285.
- N. N. ROMANOVSKIJ: The scheme of correlation of polygonal wedge structures, p. 287–294.
- J. SEKYRA: Weathering of a Tassili Silurian Sandstone, Central Sahara, p. 295–297.
- A. ŚRODOŃ: Late-Pleistocene flora and mammoth skeleton from Rzochów near Mielec (S. Poland), p. 299–309.
- L. TUFNELL: Ploughing block movements on the Moor House Reserve (England), 1965–75, p. 311–317.

BIULETYN PERYGLACJALNY, NO. 27 (1978)**ARTICLES AND NOTES**

- K. BALANTYNE: The hydrologic significance of nivation features in permafrost areas, p. 5–10.
- H. BERTOUILLE: Théorie nouvelle de la formation des doublets des limons, p. 11–22.
- J. BOARDMAN: Grèzes litées near Keswick, Cumbria, p. 23–34.
- J. BROCHU: Disposition des fragments rocheux dans les dépôts de solifluxion, dans les éboulis de gravité et dans les dépôts fluviatiles, p. 35–51.
- K.-U. BROSCHE: Ergebnisse einer vergleichenden Studie zum rezenten und vorzeitlichen periglazialen Formenschatz auf der Iberischen Halbinsel, p. 53–103.
- F. GULLENTOPS and E. PAULISSEN: The drop soil of the Eisden type, p. 105–115.
- M. KUHLE: Über Solifluktion und Strukturboden in S.E.-Iranischen Hochgebirgen, p. 117–131.
- J. R. MACKAY: Contemporary pingos: A discussion, p. 133–154.
- A. I. POPOV: Cryolithogenesis, the composition and structure of frozen rocks, and ground ice, p. 155–170.

METHODOLOGY OF FIELD STUDIES

- Fossil frost- and ice wedges, p. 171–177.

REVIEWS

- C. *Embleton*, C. A. M. *King*: Glacial Geomorphology (vol. I), Periglacial Geomorphology (vol. II) (A. DYLIKOWA et A. SADŁOWSKA), p. 179–180.
- H. M. *French*: The periglacial environment (A. DYLIKOWA), p. 180–182.
- A. *Jahn*: Problems of the periglacial zone (A. DYLIKOWA), p. 183–185.
- J. C. F. *Tedrow*: Soils of the polar landscapes (A. JAHN).

BIULETYN PERYGLACJALNY, NO. 28 (1981)

apart of articles and notes it comprises the reports of the Symposium "Périglaciaire et Paléogéographie du Quaternaire", Belgique–Pays-Bas.

ARTICLES and NOTES

- R. CLARK: Cold climate features of the Cordillera Cantabrica, northern Spain, p. 5-13.
- C. B. CRAMPTON: Analysis of synergistic systems for evaluating terrain sensitivity to disturbance of icy permafrost in the Mackenzie River valley, Canada, p. 15-31.
- H. M. FRENCH and A. G. LEWKOWICZ: Periglacial slopewash investigations, Banks Island, western Arctic, p. 33-45.
- S. GOUDIE and N. R. PIGGOTT: Quarzite tors, stone stripes and slopes at the Stiperstones, Shropshire, England, p. 47-56.
- P. G. HOARE and A. M. MCCABE: The periglacial record in east-central Ireland, p. 57-78.
- P. W. MARSHALL: The formation and age of ice in caves, p. 79-84.
- J. L. MCARTHUR: Periglacial slope planation in the southern Pennines, England, p. 85-97.
- Z. S. PASZKIEWICZ: Two-storeyed frost wedges in the vicinity of Yaroslavl, U.S.S.R., p. 99-102.
- M. C. VANMAERCKE-GOTTINY: Some geomorphological implications of the cryo-aeolian deposits in western Belgium, p. 103-114.
- P. A. RIEZEBOS and R. T. SLOTBOOM: Micro-pingos on a bridge in Amsterdam, p. 115-118.

LE SYMPOSIUM, BELGIQUE - PAYS-BAS 1978

- A. PISSART: Compte rendu du Symposium "Périglaciaire et Paléogéographie du Quaternaire", Belgique-Pays-Bas, p. 119-122.

BIULETYN PERYGLACJALNY, NO. 29 (1982)

The volume consists of two parts – in first articles and notes were published, the other part comprises reports of "The Fennoscandian Symposium, 1979 which was organized by The Co-ordinating Committee for Periglacial Research of the I.G.U.

ARTICLES and NOTES

- P. BOUT: Action du gel intense sur les basaltes, p. 5–11.
- L. DUTKIEWICZ: Preliminary results of investigations on some periglacial phenomena on King George Island, South Shetlands, p. 13–23.
- A. JAHN, S. SIEDLECKI: Periglacial phenomena on the Varanger Peninsula (Norway), p. 25–52.
- M. KOROTAJ, E. MYCIELSKA-DOWGIAŁŁO: Wurmien periglacial processes on the Kolno Plateau in the light of sedimentologic investigations with the use of the scanning electron microscope, p. 53–76.
- J-P. LAUTRIDOU: La fraction fine des débris de gélifraction expérimentale, p. 77–85.
- A. MANIKOWSKA: Upfreezing of stones in boulder clay of Central and North Poland, p. 87–115.
- A. N. MOTTERSHEAD: Some sources of systematic variation in the main head deposits of southwest England, p. 117–128.
- H. SVENSSON: The use of aerial photographs and remote sensing techniques in research on fossil periglacial features, p. 129–138.
- H. SVENSSON: Valley formation initiated by ice wedge polygonal nets in terrace surfaces, p. 139–142.
- J. C. F. TEDROW, E. C. KRUG: Weathered limestone accumulations in the high Arctic, p. 143–146.
- P. J. VINCENT, J. V. CLARKE: A note on the detection of slip-planes in terracettes, p. 147–149.

THE FENNOSCANDIAN SYMPOSIUM, 1979

- The Fennoscandian Symposium, 1979, organized by the Co-ordinating Committee for Periglacial Research of the I.G.U. (R. ÅHMAN, M. SEPPÄLÄ, H. SVENSSON), p. 151–153.
- J. GRIMBÉRIEUX: Asymmetrical valleys of periglacial origin in south-eastern Hesbaye, Belgium, p. 151–162.
- S. A. HARRIS: Distribution of zonal permafrost landforms with freezing and thawing indices, p. 163–182.
- J. KARTE: Development and present state of German periglacial research in Arctic and alpine environments, p. 183–201.
- R. LANGOHR, R. VERMEIRE: "Well drained soils with a degraded" Bt horizon in loess deposits in Belgium; relationship with paleo-periglacial processes, p. 203–212.
- G. DE MOOR: Pillar channels, syngenetic periglacial structure in Pleistocene coarse terrace deposits, p. 213–218.

- A. PISSART: Déformation de cylindres de limon entourés de graviers sous l'action d'alternances gel/dégel. Expériences sur l'origine des cryoturbations, p. 219–230.
- M SEPPÄLÄ: Present-day periglacial phenomena in northern Finland, p. 231–244.
- H. SVENSSON: Age determination of fossil ice-wedge polygons in Nordic areas, p. 245–252.
- A. SZÉKELY: Types of periglacial forms and processes in the Hungarian Mountains in relation to rock differences, p. 253–259.
- R. ÅHMAN, M. SEPPÄLÄ, H. SVENSSON: Periglacial excursion in Northern Finland and Norway, 1–8 September 1979, p. 261–273.
